GREENEVILLE

Six hours after high water it is low ide, which is followed by flood tide.

Repairs Being Made at the Federated Church-Football Team Disbands-Personals.

At the Federated church extensive repairs and improvements have been completed. A new electric lighting system has been installed to take the place of the gas lighting. The painting of the outside of the church has been completed. The work of installing a new heater in the church is under way. Excavations are being made on the north side of the building so as to get the heater into the new cement room which is being built under the church. It will be several weeks bechurch. It will be several weeks be-fore the heater will be ready for use.

G. A. C. Team Disbands.

The Greeneville A. C. football team. for many years one of the fastest teams for many years one of the lastest teams in the state, has been disbanded. Many of the old players have left town and others feel as if they could not afford to take the risk of being injured. Some of the players will go to the newly organized Taftville team.

School Opens With Large Attendance. The Greeneville grammar school began its sessions Monday after being closed later than usual on account of the epidemic of infantile paralysis. There was a large chroliment at the

HELD FOR CRIMINAL COURT

Harry Levine Bound Over Under \$750 on Non-Support Charge-Was Brought to Norwich From Detroit on Monday-Four Charged With Theft of Tin Cargo Bound Over by New London Police Judge.

Harry Levine, presented in the city court on Tuesday morning charged with non-support and desertion of his wife and two children, was held for the next term of the criminal superior court under bonds of \$750. In default he went to jail to await trial. Levine was located in Detroit, Mich., and Police Sergeant Allen Matthews was its in the case, which, the former says, cant to Detroit to bring the man back. court under bonds of \$750. In default he went to jail to await trial. Levine was located in Detroit, Mich., and Po-lice Sergeant Allen Matthews was sent to Detroit to bring the man back. He arrived in Norwich with his pris-

oner on Monday. Oscar W. Palmer of 219 Connecticut avenue, Truman W. Brown of 20 Central avenue, and Louis and Reuben Lubchansky, owners of the New England Iron & Metal Co., all residents of New London, charged with the theft of a cargo of tin valued at \$1,500 were bound over by Judge Coit on Tuesday to the January term of the superior criminal court. Bonds in the cases of Palmer and the Lubchansky Brothers was fixed at \$2,500, while Brown was given his freedom on surety of \$1,000.

James R. McMahon, chief of the New Haven railroad detectives; Special Agent See, also of the New Haven road, Lieut. Theodore F. Downing of the state police and William E. Jack-Oscar W. Palmer of 219 Connectithe state police and William E. Jack-son, a state police officer figured in the arrests which were made late

Monday afternoon Attorneys Morris Lubchansky, War-ren B. Burrows and Clayton B. Smith represented the Lubchansky brothers and Palmer in police court Tuesday, Attorney George C. Brown appeared in behalf of Brown. A demurrer was en-tered in each case and was overruled by the court in passing decision.

The theft is alleged to have taken said were place Jan. 10 ,1915, while Palmer, tresses in the Brown and Earl May, a fifth defendant three Span

In the case who is now serving out a sentence at the county jail on Franklin street. New London, were employed in various capacities by the New Haven various capacities by the New Haven road. Through what the police allege to have been a conspiracy, a freight car loaded with 40 pigs of block tin, valued at \$1.500, and consigned to another city was sidetracked in New London.

It is declared that the police are prepared to present evidence to show that after the car had been sidetracked.

pared to present evidence to show that after the car had been sidetracked through the joint activities of the three railroad men lits cargo was transported by means of automobile to the New England Iron & Metal Co.'s plant.

The quartet are brought before the bar of justice through a confession made by May, it is said, in which he turned State's evidence. His action the police say, was brought about three days.

The three lads had been in the employ of the company not more than only been working on the Chapin about three days.

Attorney Perry J. Hollandersky through the failure of the gang to who appeared for the accused said no

were largely responsible for the suc-cessful round-up of the gang on Mon-

day.

At the request of Prosecuting Attorney Daniel M. Cronin, Brown's ball was fixed at \$1,000 in consideration of evidence which he has furnished the police. Attorney Cronin also asked the court to take into consideration the delicate condition of Mrs. Brown's health

health. Probable cause was found by Judge Coit Tuesday in the cases of the three Spanish youths, arrested in August, for the larceny of a case of shoes, cigarettes and other articles while in the shipment aboard the steame Chester W. Chapin. All three, to-gether with Dominick Perara were bound over to the next term of the superior criminal court in bonds of \$500 each. Frederick A. Schultz ,chief engin-

eer of the steamer Chapin, was the principal witness for the state at the continued hearing Tuesday. At a previous hearing several witnesses testified concerning the shipments of shoes, which it is alleged were stolen

Schultz told the court of his finding shoes hidden in various parts of the steamer. Shoes and cigarettes he said were found under the mattresses in the bunks occupied by the three Spanish lads in the forecastle, ten pairs were discovered in an old ten pairs were discovered in an old bag in the shaft alley of the ship and there were ten more pairs in the fur-nace of the dunky boiler. Manuel Concho he found in his bunk when the search was made and

the shoes found under the mattresses The other two bunks were unoccu-pied, but whe nthe watch was changed he saw Antonio Suarez and Antonio Garchia, the other two members of the trio, go to the bunks where the

through the failure of the gang to who appeared for the accused, said no stand by him, after he had been senevidence would be presented by the tenced to serve one year in jail at the defense.

BIRD TREATY PRECLUDES ALL FURTHER QUESTION.

States Surrendered to Federal Government Treaty Making Power.

As soon as the treaty providing pro ection for birds that migrate between lanada and the United States was ratified the question that became up-permost in the minds of those interest-ed in wild life protection was whether this action precluded any further prestion as to the constitutionality of the federal law for the protection of tion of the big order of army rifles for the Belgian government. The meeting was attended by ex-Congressman Edwin W. Higgins of this city, a servetor of the company.

The company is now finishing up the company is now finishing up the company is now finishing up the company are ready for shipment.

The company is now finishing up the company is now finishing up the company are ready for shipment.

William S. Haskall coursel for the company are ready for shipment.

and a number are ready for shipment.

William S. Haskell, counsel for the life is expected that shipments will begin very soon now, as the company is making excellent progress. A number of New York city, has just completed an exhaustive study of the question finished the contract for the steel finished the contract finished the contract for the steel finished the contract finished the Personals and Notes.

Thomas Wignall motored to Boston Tuesday, where he will spend a few days as the guest of friends.

Sign very soon making excellent progress. A number an example of the conclusion that the departments are and have been working for some weeks on a day and part night schedule.

Thomas Wignall motored to Boston making excellent progress. A number and has come to the conclusion that there is no doubt that the treaty does proclude any question as to the law's constitutionality.

We haskell states that the suprements are and have been working for some weeks on a day and part night schedule.

New Haven—John J. Splain was unanimously voted chairman at a meeting of 200 New Haven people on Thursday evening for the purpose of organizing a New Haven branch of the Friends of Irish Freedom. Mr. Splain is a director of the national body.

Splain is a director of the national body.

Weller Weller was a law binding within the treaty making power, thereby making a treaty a law binding within the treaty making power, thereby making a treaty a law binding within the treaty making power, thereby making a treaty a law binding within the treaty making power, thereby making a treaty a law binding within the treaty making power, thereby making a treaty a law binding within the treaty making power, thereby making a treaty a law binding within the treaty making power, thereby making a treaty a law binding within the treaty making power thereby making a treaty a law binding within the treaty making power. of the constitution, which provides steel

territorial limits of each state and requiring the judges in every state to recognize its provisions.

The treaty, therefore, being constitutional, and it being the duty of the United States to carry its provisions into effect, any law which enforces the treaty must be recognized as valid. The agreements in the treaty are identifications. The agreements in the treaty are iden-tical with the regulations made under the law so that the treaty is given effect through the law. Without the law there would be no machinery to carry into effect the treaty agreements and therefore it is highly improbable that the court will declare the law unconstitutional.

It would be helpful for the moral effect on those who have doubted the constitutionality of the law if the supreme cour: would consider the matter and express its opinion that, as the law is required to carry out the treaty agreements, it can no longer be questioned or disregarded, and it is to be hoped that the department of justice will be able to be their matter. will be able to obtain such an ex-pression from the court.

Observed Her Birthday.

Observed Her Birthday.

A very pleasant evening was spent on Thursday last at the home of Mrs. Emily F. Pelton on the East Side. A few of her friends calling in honor of her birthday. Among those present were Mr. and Mrs. Byron Mathieu, Mrs. Charles Tubbs, Mrs. H. C. Peckham, Mrs. Adolph La Mothe, Mrs. Caroline Benjamin, Mr. and Mrs. Emil A. Zahn. Refreshments were served and all departed, wishing her many happy returns. happy returns.

County Temperance Convention. It is expected that a number of the local members of the W. C. T. U. will attend the county convention at Niantic on Thursday. The morning session is to open at 10 o'clock and there will be a basket lynch of will be a basket lunch at noon. Among the speakers will be the state presi-dent and others and the election of officers will also take place. An ur-gent request has been sent out to all local members to attend the meeting.

Fractured Bone in Her Ankle. Mrs. Henry Wilde of Ocean Beach was painfully injured Monday when she slipped on a wet floor in her hesidence and sustained a fracture of two bones in her ankle. Mrs. Wilda was walking across the floor when she struck a moist spot and as she feil her foot was doubled under her, the fracture resulting.

Adopt International Graded Lessons The Sunday school teachers of the unior department of the Central junior department of the Central Baptist Sabbath school met in the board room of the Y. M. C. A., Monday evening and discussed plans for the coming year. Besides mapping out plans in general it was decided to adopt the International Graded to adopt the International Graded les-

Get the Habit of **Drinking Hot Water** Before Breakfast

Says we can't look or feel right with the system full of polsons.

Millions of folks bathe internally millions of folding their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines neys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache hillous attacks.

causing headache, bilious attacks, fou breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can not get feeling right, are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to cost very little but is sufficient to make anyone a real crank on the sub-ject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

MANY WORKMEN EMPLOYED ON THE NEW BRIDGE

Excellent Progress Being Made on Construction of Three Million Dollar Structure.

Notwithstanding sundry mishaps which have delayed the work, Hol-brook, Cabot & Rollins are making ex-cellent progress on the construction, of substructure of the \$3,000,000 steel and concrete railroad bridge which will span the Thames in the near future. The unexpected sinking of a caisson was one of the most zeri-ous difficulties with which the contractors had to contend. A still more recent accident was that of Monday when a pile driger attached to the old New Haven bridge tipped over and sunk to the river bottom.

But these are merely incidents in the day's work and the great project is going on merrily. On both east and west sides of the river the bridge approaches we practically completed. The coffer dam for the westerly abutment of the big structure is in position, has been pumped out and is being filled with concrete.

The first caisson, which marks the is in place and has been sunk to a depth of 60 feet. This is also being filled with concrete. Still another caisson for the next pier cast has been completed at the Riverside yards and has been floated down the river pre-paratory to being sunk in its perman-

ent position.

The method of constructing the piers is an unusual and difficult one and is attracting attention of engin-eers oil over the world. There will be five briwge piers in all and it is expected they will be completed in the spring. The freedom of the river from ice is of course a material fac-

lew Haven road. There are probably in the vicinity of 200 workmen now employed on the bridge construction employed on the bridge construction but when the superstructure is under there will be a small army of

WAISTS THAT ARE DREAMS. Twenty-two Exclusive Models Shown at One Opening-New and Novel Touches-Taffeta Liked for After-

noon as Well as Evening Dresses.

and variety which the designers have shown this season, and the dreams of waists which they have sent out from he work rooms. Sheer, dainty materials are to con-

tinue in favor during the coming sea-Waists which are priced from \$5 to W. B. F. M., at the Congregational \$12 meet every requirement of a wom-an's wardrobe, except perhaps for the most formal and ultra-smart occasions, Artists in designing have evolved no end of choice and dainty novelties for waist adornment, such as oddities in waist adornment, such as oldnies in loops and buttons, smocking touches, vest effects, inserts, beading, embroid-ery finish, odd collars, caffs, belts, hemstitching, and the like. Roman stripes come in the most art-istic effects; colored Georgette is em-

ployed in combination with white or with taffeta; changeable material is employed with smart results. Soft, richly shaded plaids are high in popularity. All the models have long sleeves, many of these ending in the

new flaring cuff.
Silk has lost none of its vogue, for street dresses as well as for waists. Handsome was a one-piece afternoon dress in bottle green taffeta, in ruffled side panel design, the jacket with double collar in the silk and white

a one-piece model, in peplum effect.
The skirt was plain, the sleeves of Georgette with taffeta cuffs, and a shawl collar in taffeta and Georgette was graceful and modish.

Mrs. Frankle Sevin of Bridgeport visited her cousins, Mr. and Mrs. F. A. Skinner of Peck's Corner the first of the week. Again, taffeta was employed in an Otrobando ave elegant evening gown of delicate lemon the last of the tint, pannier style, with rich silver East Norwich. trimming. White silk net formed the short sleeves and was draped on the bodice in combination with the silver, a knot of French flowers in shaded tints forming the corsage finish.

Let The Bulletin's advertisers be your guide today as to where these and many other dainty and exclusive waist and dress models are on sale.

Poking Fun at New London. Tuesday's New York World said: This country has seen some pretty badly disorganized travel schedules at times, but so far as we can recollect there has never been anything in the way of a demoralized time-table to compare with the Bremen-New Lon-don Submarine Steamship Company's. There is a tie-up on the- line some where.
